

ATTACHMENT 4: LAUNCH SERVICE AGREEMENT COMPLIANCE DOCUMENTS

Table 1 Launch Service Agreement Compliance Documents		
Document Number/Abbreviation	Revision/Date	Document Title
SPRD (Note 1 and 3)	Revision A April 2014	EELV Systems Performance Requirements Document
SIS (Note 3)	Revision B 9 November 2013	EELV Standard Interface Specification
USAF NECG (Note 2)	27 October 2011	United States Air Force Launch Services New Entrant Certification Guide (NECG)

- Note 1:** The Launch Service Agreement (LSA) launch system prototype must encompass the family of flight configurations to satisfy all Mass-to-Orbit requirements as specified in SPRD paragraph 3.2.1, Table 1 Mass-to-Orbit Requirements for Department of Defense Reference Orbits.
- Note 2:** For the LSA an EELV approved Certification Plan or set of EELV approved Certification Plans developed IAW the USAF NECG will be included as Annex(es) to the LSA Statement of Work (SOW). While the 2011 NECG requires application of Mil-Std-882C, instead use Mil-Std-882E for this LSA.
- Note 3:** New EELV requirements are forthcoming from the Capability Production Document (CPD) for Spacelift systems, which was approved 31 May 2016. As a result, new revisions of the EELV SPRD and SIS are in work and will be released prior to final award of the LSA.

COMPLIANCE DOCUMENT TAILORING

USAF NECG

For the LSA, replace the USAF NECG Table 3 DoD Reference Orbits (pg 14) with the EELV SPRD and SIS (Annex C, Attachment 4); and replace the USAF NECG Table 12 Orbital Parameter Accuracies (pg 40) with the EELV SPRD and SIS (Annex C, Attachment 4)
